GARGI PATEL

gargi962004@gmail.com| +1 (778) 929-7159 | LinkedIn

Education

2023-2025 **Capilano University** **North Vancouver, Canada**

Associate of Science – Biology

2020-2022 **Shannon School** **Gujarat, India**

12th Science major (Physics, Chemistry and Biology)

Work Experience

10/2022 to Current **Customer Service Coordinator | Best Buy** **Downtown,Vancouver**

- Customer Engagement & Sales
  - Provided expert customer service, managed returns/exchanges, and handled financing applications.
  - Upsold extended warranties and installation services, ensuring post-purchase satisfaction.
- Administrative & Inventory Management
  - Addressed online customer inquiries through callbacks and emails
  - Resolved credit/debit discrepancies, and partnered with manufacturers to fulfil warranties.
  - Audited returns and maintained accurate inventory records, generated labels for shipping out third party vendor products.
  - Cash Handling: Balanced daily receipts, prepared bank deposits, and ensured availability of necessary cash and coins for store use.
- Team Leadership & Coordination
  - Oversaw order-pickup area, from stocking incoming orders to final hand-offs to customers.
  - Collaborated and assisted senior admin and team lead with screening interview calls and resume sorting on workday.
  - Collaborated with cross-functional teams and assisted with sales and technical laptop service desk, down-stock products, manage digital price tags, and maintain storewide organization.

02/2023 to 05/2023 **Peer English Tutor | IELTS Centre** **Gujarat, India**

- Provided one-on-one and group tutoring for listening, reading, and writing modules.
- Assisted students in improving English proficiency, focusing on grammar, comprehension, and academic writing skills.

Academic Projects

- **Laboratory Techniques & Research Skills**
  - Performed invertebrate dissections and identified key anatomical and physiological structures.
  - Extracted DNA and conducted gel electrophoresis to analyse genetic material.
  - Executed RBC/WBC counting using Neubauer's chamber and haemoglobin estimation (Sahli's method).
  - Demonstrated aseptic transfer, broth preparations for microbiology lab, staining and preparing the bacterial smears, immersion oil microscopy, describing the colony morphology and differential tests for identification of bacteria.
  - Investigated nutritional science, including macro-/micronutrients, and prepared diet charts using Nutrition Calc.
  - Applied basic physiological principles (nervous, endocrine, and digestive systems), integrating concepts from chemistry and physics.
  - Prepare and grow bacterial cultures through aseptic transfer, efficient with streak plate and spread plate isolation, various simple and complex staining procedures, differential tests for bacterial strains.
- **Ecological & Biodiversity Studies**
  - Conducted an on-campus bird biodiversity project, employing the Merlin Bird App and Shannon diversity index for data collection and analysis.
  - Utilized SPL (Sound Pressure Level) meters and binoculars to stratify sampling areas and gather reliable data.
  - Followed scientific methods: formulated testable hypotheses, designed experiments, analysed results, and drew evidence-based conclusions.
- **Chemistry Proficiency**
  - Skilled in titration techniques (acid-base, precipitation, complexometric, and redox).
  - Performed thin-layer chromatography (TLC) and spectroscopic analysis (absorbance and emission spectroscopy).
  - Synthesized Aspirin and organic acids, including caffeine isolation from tea.
  - Well-versed in stoichiometry, kinetics, chemical equilibrium, electrochemistry, and thermodynamics.
  - Ability to make buffers of required pH and solutions of required concentrations
  - Use MeasureNet and Accumet to collect data
  - Proficient with Constant Pressure Calorimetry
  - Well versed with basic unit conversions, weighing and other ancillary techniques.
- **Pharmaceutical Foundations**
  - Familiar with prescription structures, posology, and dosage regimens.
  - Prepared basic dosage forms (syrups, emulsions, ointments, and suppositories) with awareness of therapeutic and physical incompatibilities.
- **Volunteer Experience**
  - **Hospital Volunteer | Vancouver Coastal Health (Lions Gate Hospital)**

        - Served at the information desk and as a navigator, directing patients and visitors.
        - Offered emotional support to patients, ensuring empathetic and patient-centred care.
        - Over 90 hours of total volunteering
    - **Environmental & Research Volunteering | Capilano University**
        - Filmed and demonstrated bird data collection methods, highlighting ecological research techniques for BES Degree at Capilano University.
        - Provided educational insights about the campus biodiversity and environmental awareness.

Skills

- **Clinical & Laboratory:** Blood cell counting, DNA extraction, gel electrophoresis, TLC, spectroscopic analysis.
- **Research & Analysis:** Study design, data collection, statistical interpretation (e.g., Shannon diversity index), hypothesis testing.
- **Pharmaceutical Knowledge:** Prescription structures, dosage preparation, therapeutic incompatibilities.
- **Technical**: Proficient in Microsoft Office (Word, Excel, PowerPoint) and Google Suite (Docs, Sheets, Slides), basic data management tools.
- **Communication & Teamwork**: Customer Service, tutoring, peer collaboration, public speaking

Additional Skills

Certifications

2024	Alison Pharmacy Assistant Certification
2024	WHO Introduction to Microbiology
2025	Coursera Pharmacy Dosage and Prescription Essentials (ongoing)

Language	English, Hindi, Gujarati
